-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

RESTRICTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-6, drawn to a substrate assembly for supporting an optical component, classified in class 385, subclass 52.
 - II. Claims 7-8, drawn to a fabrication method of a substrate assembly for supporting an optical component, classified in class 385, subclass 52.
 - III. Claims 9-11, drawn to a fabrication method of a substrate assembly for supporting an optical component, classified in class 385, subclass 52.
 - IV. Claim 12, drawn to a fabrication method of a substrate assembly for supporting an optical component, classified in class 385, subclass 52.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as process of making and product made. Inventions III and I are related as process of making and product made. Inventions IV and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by another and materially different process. The applicant is claiming 3 materially different processes for making the

claimed product, so it is clear that there are multiple different methods form making the claimed product.

3. Because these inventions are distinct for the reasons given above and the search required for each Group is not required for each of the other groups, restriction for examination purposes as indicated is proper..

A reference which would further anticipate the invention of one group would not necessarily anticipate or even make obvious another group. This, it would be an undue burden to examine all the above inventions in one application.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin S. Wood whose telephone number is (571) 272-2364. The examiner can normally be reached on Monday-Thursday (7am - 5:30 pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rodney B. Bovernick can be reached on (571) 272-2344. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
